

EU REGULATION 2020/740

TYRE LABELLING | MERCEDES-BENZ

INFORMATION

The Union has committed itself to creating an energy union with a forward-looking climate policy. Fuel efficiency is a key component of the Union's 2023 climate and energy policy framework and is central to curbing energy demand.

Implementation

Regulation (EU) 2020/740 came into force on 25 June 2020. It repeals and replaces Regulation (EC) No 1222/2009 with effect from 1 May 2021, its date of application. The regulation creates a framework to provide harmonised information on tyre parameters through labelling, enabling end users to make informed decisions when purchasing tyres. The aim is to promote fuel-efficient, safe and low-noise tyres, and thus increase the economic and ecological efficiency of road traffic.

While the content and format of the tyre labelling, i.e. the tyre label, is defined in Annex II, Annex I contains regulations for testing, classification and measurement of the following parameters:

- (A) Fuel efficiency classes and rolling resistance coefficient
- (B) Wet grip classes
- (C) Classes of external rolling noise and measured values
- (D) Snow traction
- (E) Ice traction

Prior to the sale, the Carthago Group is obliged to provide end users with the label for the offered or fitted tyres, as well as the corresponding technical promotional material. It must also ensure that the product data sheet is available.

Your configured vehicle may be equipped with any of the tyre brands listed here, depending on availability at the base vehicle manufacturer and its suppliers.

PRODUCT INFORMATION SHEET

Delegated Regulation (EU) 2020/740

Supplier name or trademark		MICHELIN	
Commercial name or trade designation		AGILIS+ MO-V	
Tyre type identifier	Tyre class	400693	C2
Tyre size designation		235/60R17C	
Speed category symbol		R 170 km/h	
Load-capacity index (for single mounting)		117	
Load-capacity index (for dual mounting)		115	
Fuel efficiency class		B	
Wet grip class		A	
External rolling noise class	External rolling noise value	B	70 dB
Tyre for use in severe snow conditions		No	
Load-capacity index for Additional Service Description (for single mounting)		-	
Load-capacity index for Additional Service Description (for dual mounting)		-	
Speed category symbol (for Additional Service Description)			
Date of start of production (Week / Year)		23/16	
Date of end of production (Week / Year)		-	
Supplier		Service Consommateurs Michelin, place des Carmes-Déchaux 23, 63000 Clermont-Ferrand, FR

The image displays two performance charts for the tyre. The left chart shows energy efficiency grades from A (green) to E (red), with the tyre's performance marked as C (yellow). The right chart shows wet grip grades from A (dark blue) to B (black), with the tyre's performance marked as B (black). Below these charts, a noise level of 72 dB is shown with a speaker icon and the letters ABC.

The diagram illustrates the energy label components. On the left, a vertical scale of fuel efficiency classes from A (green) to E (red) is shown, with a black arrow pointing to class B. In the center, a wet grip icon shows a tire on a wet surface with rain, with a black arrow pointing to class A. On the right, a noise icon shows a tire with sound waves, with a black arrow pointing to class A. Below these, a noise level of 73 dB is indicated with a speaker icon and a snowflake icon, with a black arrow pointing to class ABC. A small vertical text '2020/740' is located at the bottom right of the diagram area.
